3.5MM DUAL STEREO JACK

3-conductor, miniature phone jack mates with 3.5mm finger plugs. Saves board space by housing two jacks in a single vertical mount footprint. Ideally suited for infra-red and convection oven soldering 235°C (455°F). Board retention pins accommodate PC board thickness range of .050 inches to .080 inches. EMI-RFI shield, optional. Housing UL 94V-0 rated against flammability.
