

COBBLESTONE

GPS Tracker

Introduction.

COBBLESTONE is the first GPS tracker in the World with no subscriptions or monthly fees.

Apps and integrations.

COBBLESTONE comes with apps for both iOS and Android as well as an online platform (web). It is also possible to use our open API for integration with 3rd party systems.

Profiles and settings.

COBBLESTONE comes with 5 different standard tracking profiles:

1) Live Tracking

The unit sends a position when it starts moving, every 15. minute while moving and 15 minutes after latest movement

2) Movement

The unit sends a position 1 hour after latest movement

3) Burn mode

The unit sends a position every 10 minutes

4) 24 hours

The unit sends a position once every day

5) 1 track / week

The unit sends a position once every week

The unit is also equipped with dynamic firmware, allowing for the integration of customized profiles
