## SENSOR DE MEDICIÓN DE TEMPERATURA DS18B20

### Product Description:

1. 100% brand new and high quality.
2. Small size, high efficiency.
3. Resolution adjusting range: with installing hole, easy to install, hole diamere: 2.5mm.
4. Temperature Range: -55~+125Deg.C.
5. Temperature measurement precision: 0.5Deg.C.
6. Working voltage: DC 5V.
7. Size: approx. 2.8\*1.3cm.
8. Main chip: 18B20 temperature sensor.
9. Working voltage: DC 5V.

|                                                                                                                                                                                                 |                                                                         |                    |                           |
