OKY3417-1

Product Name:AT24C256 Serial EEPROM I2C Interface EEPROM Data Storage Module For Arduino

Product Module：OKY3417-1

Product Description:

1. Onboard support 8P-chip, can support the AT24C256 series chips.

2. Pin power supply, on-board power indicator.

3. Edge pull-up resistance for necessary I2C communications.

3. All pins lead out and be marked, address input and parameter pins of the write protection direct jumpers.

4. PCB board size: 36.5 (mm) x12 (mm).
