

**RELIFE**

RELIFE RL-014A

# HIGH POWER UV CURING LAMP

Imported T6 big lamp beads

Suitable for UV glue / shadowless glue / optical glue /  
ink / resin glue curing / currency detector /  
fluorescent agent detection

Quality accessories

Efficient curing

Multi-purpose light

## Wide Range Of Applications

Mainly suitable for shadowless glue, UV glue, optical glue, photosensitive green oil, resin glue, ink, etc.

### Optical glue

It has an optically transparent layer of special double-sided adhesive without substrate, which is not easy to cure under normal conditions.

### Shadowless glue

Shadowless glue is a type of adhesive that must be cured by ultraviolet light.

### Resin glue

Resin glue is glue made of resin, which has the characteristics of ecological and environmental protection, and can be cured by ultraviolet light.

### Green oil

Green oil is a liquid light-induced flux, which is an acrylic oligomer and needs to be cured by a UV lamp.

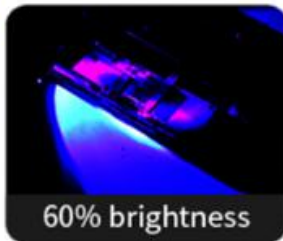

# Three Gears Adjustable, Timing Function

100% brightness + 60% brightness + 30% brightness + Automatic timing off setting

100% brightness

60% brightness

30% brightness

# Imported T6 Big Lamp Beads

Using imported high-quality T6 lamp beads design, effective energy saving,  
not easy to overload, safe and stable, durable

Imported T6 big lamp beads

# PRODUCT INFORMATION

**Note:** USB cable length is 1000mm

BRAND	<b>RELIFE</b>
PRODUCT NAME	UV Curing Lamp
MODEL	RL-014A
NET WEIGHT	120g
GROSS WEIGHT	145g/Box
GROSS WEIGHT	48*48*60mm
PACKAGE SIZE	60*60*66mm/Box
CURRENT	2A
VOLTAGE	5V
POWER	10W

# PRODUCT DETAILS

---

**Automatic timing shutdown setting, convenient and easy to use**

---

Long press for 5 seconds to enter the green light mode, short press once for 30 seconds, short press twice for 2\*30 seconds, and so on

## High quality silicone switch

The circular tail rubber switch is made of environmentally friendly materials, which is comfortable to handle and can switch the light source mode

## Grid groove cooling

The grid is cooled quickly to reduce heat and is durable

## USB power supply interface

Give full play to a variety of performance, compatible with a variety of devices, easy to use (computers, power banks, etc.)
