

A8-A15 CPU Planting Tin

RL-044 / IP series CPU integrated steel mesh set

Suitable for IP6G/6P/6S/6SP/7G/7P/8G/8P/X/XS/XS Max/XR/11/11 Pro/11 Pro Max/
12/12 Mini/12 Pro/12 Pro Max/13/13 Mini/13 Pro/13 Pro Max

Round square hole

Precise alignment

Fast and convenient

High quality steel

Half-cut Design, Precise Alignment

The real machine is measured to ensure accuracy. Each mesh is calibrated according to the original drawings to ensure that every solder joint is not missing; the special chip is half-cut design to block the remaining tin to meet different requirements

Half-cut design to block Yu tin

Special chip half-cut + cut-through to meet different requirements

Round And Full

It is specially designed and used for mobile phone chips. The round and square precise hole positions make the solder balls more rounded and meet the tin planting requirements for various chips.

Ultra-thin And Super Tough

Ultra-thin design, better fit of tin planting, continuous bending and full toughness

IP Series CPU Tin Planting Set

| BRAND | RELIFE |
| PRODUCT NAME | IP series CPU integrated steel mesh set |
| MODEL | RL-044 |
| WEIGHT | About 5g/Sheet |
| PRODUCT SIZE | 80*100*0.12mm |
| THICKNESS | 0.12mm |
| QUANTITY | 8 Sheets/Box |
| CONFIGURE | A8*1/A9*1/A10*1/A11*1/A12*1/A13*1/A14*1/A15*1 |

PRODUCT DETAILS

01

High temperature and wear resistance

High-quality special steel is selected, which has good high temperature resistance and metal fatigue resistance, so that each tin point is heated evenly

Precision hole pitch design

The round and square precise hole position makes the solder balls more rounded and prevents the mesh holes from jamming the solder balls
