RELIFE RL-M3T Trinocular HD Stereo Microscope

New design, collision between brand color and elegant black

Green can break the dullness brought by large areas of black, making the whole more lively

External display
device

Multiple clear
eyepieces

Easy to operate
Fast and convenient

Wide range of
applications

RELIFE

HD Optical Objective

Multilayer process

High-definition coated objective lens, No glare, Clear picture
Every small detail multi-layer precision manufacturing

The RELIFE logo is located in the top left corner. It features the word "RELIFE" in a bold, white, sans-serif font. A small green triangle is positioned to the left of the letter "R".

RELIFE

The image features a green microscope with two eyepieces. A dimension line indicates the diameter of the eyepiece barrels is 25mm. In the foreground, two black eyepieces are shown. One is upright, displaying the text "WF10X/20" and a stylized "G" logo. The other is lying on its side, showing the text "WFM10X/20" and the same "G" logo. The background is dark with green diagonal stripes.
