

RELIFE

HIGH TEMPERATURE HEAT INSULATION PAD

Multifunctional anti-static / Multi-slot storage / IC maintenance insulation / High temperature resistance 500°C

Multifunctional maintenance bench insulation pad

RELIFE
RI-004A
350mmx250mm

Suitable for all kinds of electronic product repair station

High temperature
resistance

Odorless

Anti-static

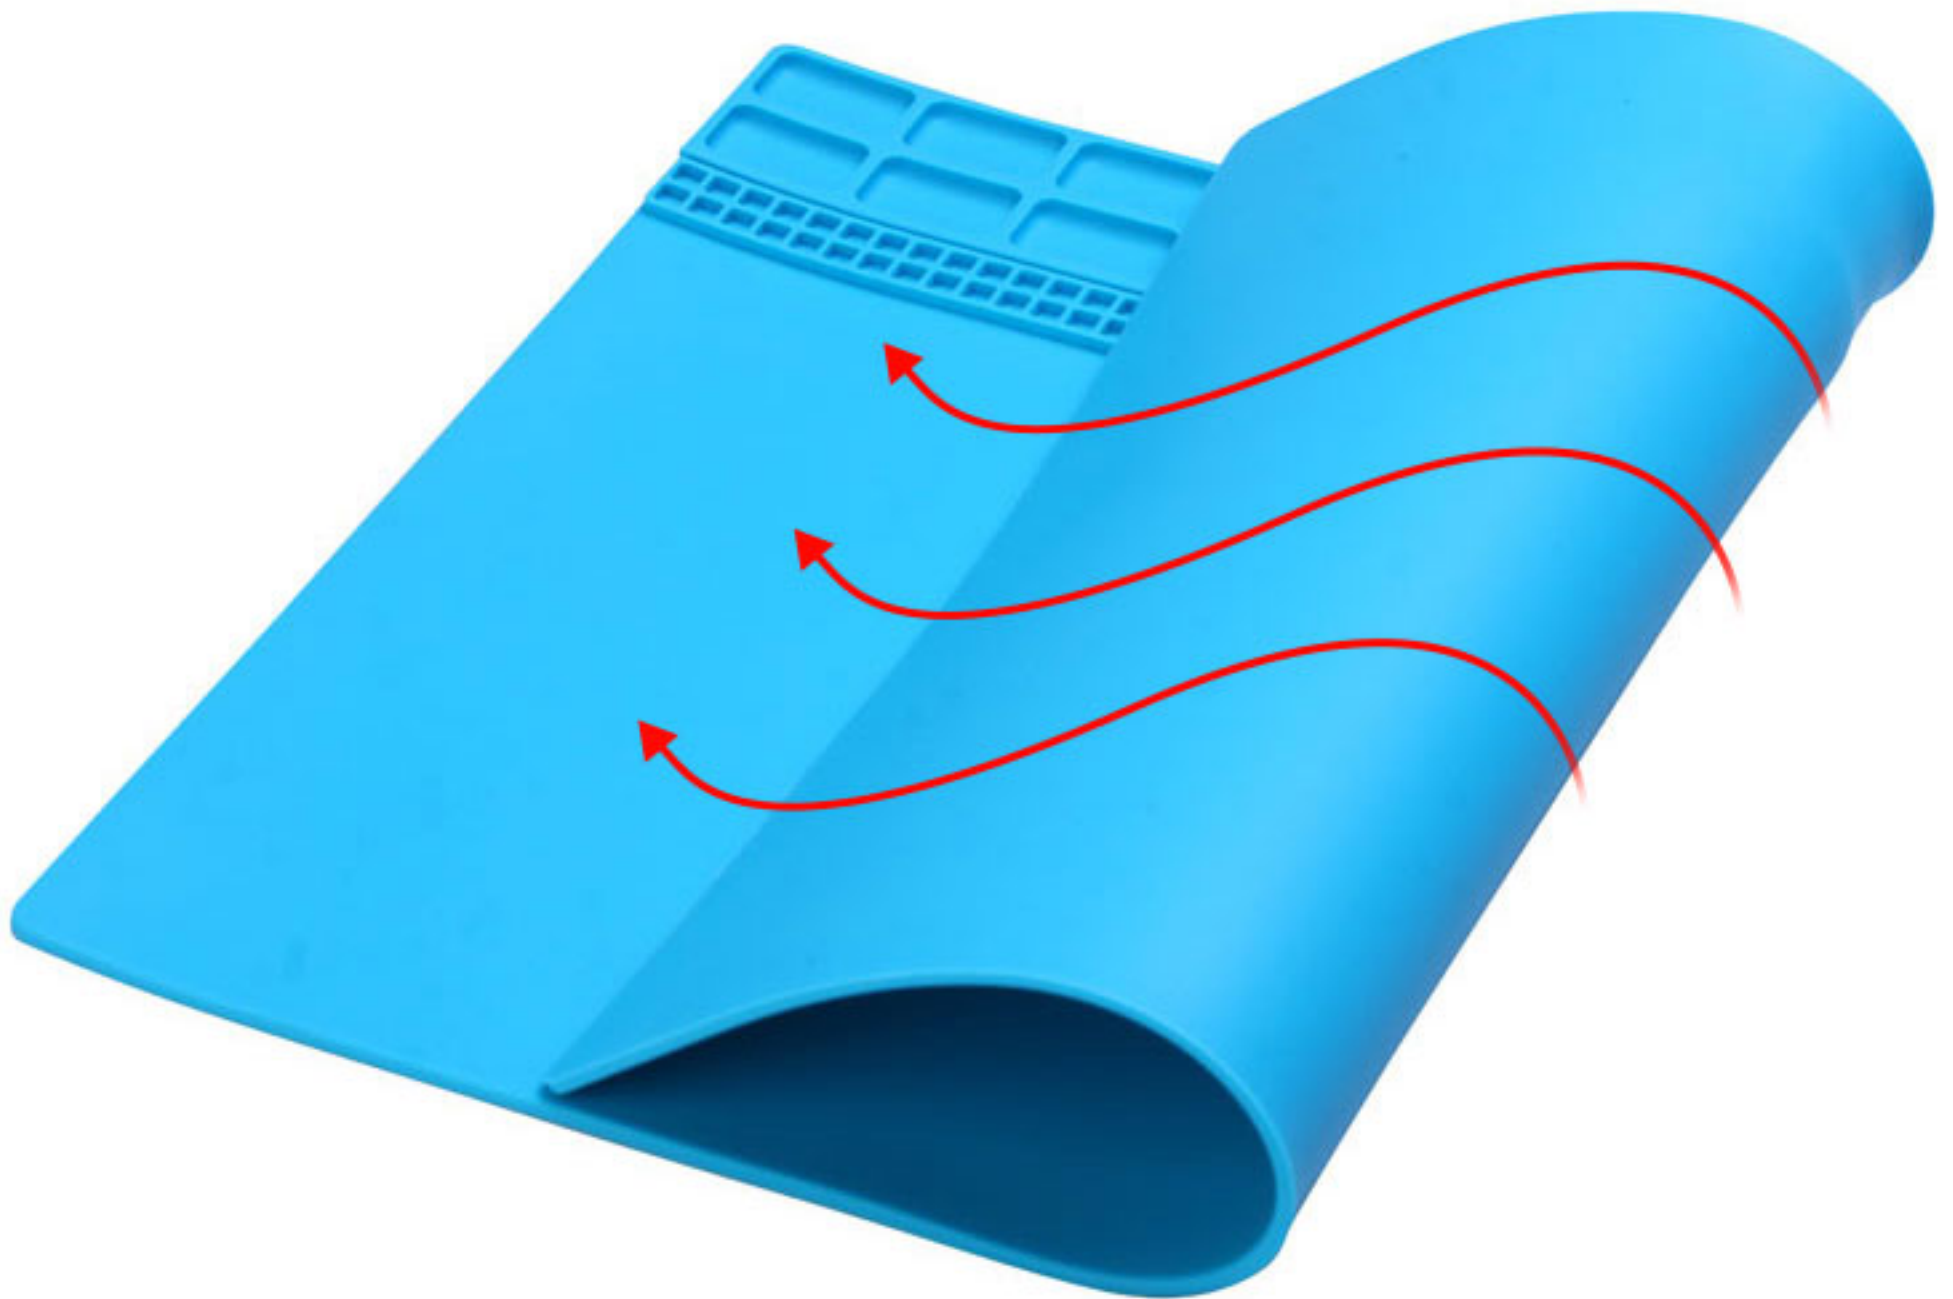

Preservative

First-class Raw Material, Soft And Not Deformed

Each piece has been strictly screened, and can be curled, twisted, rotated without deformation, and has good resilience.

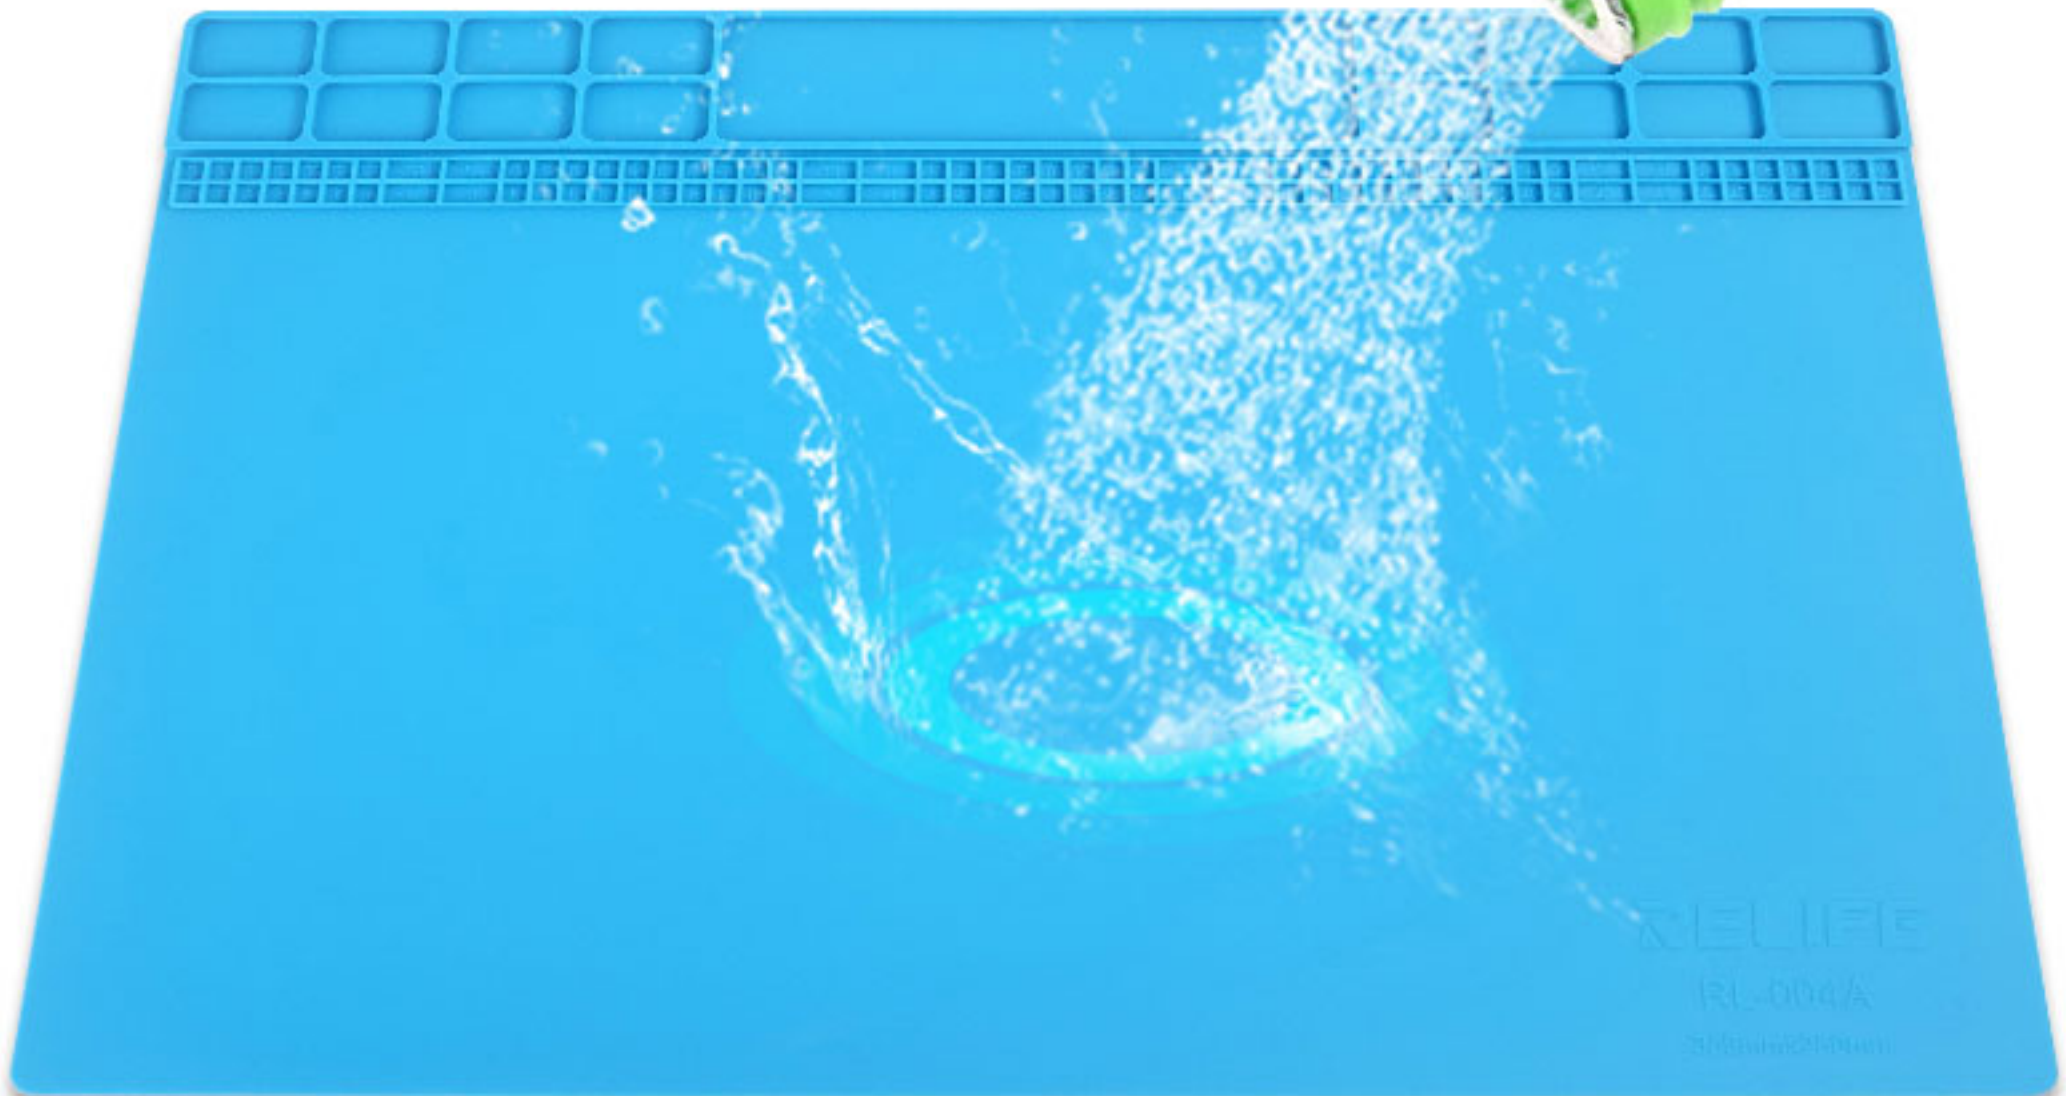

High Temperature Resistance 500°C

It can work at high temperature on the work pad, with strong memory recovery ability, high temperature resistance and good heat insulation effect

Anti-static Waterproof And Oil-proof

Insulation material, with good anti-collision / anti-skid / anti-acid and other characteristics, and wear-resistant and easy to clean

PRODUCT INFORMATION

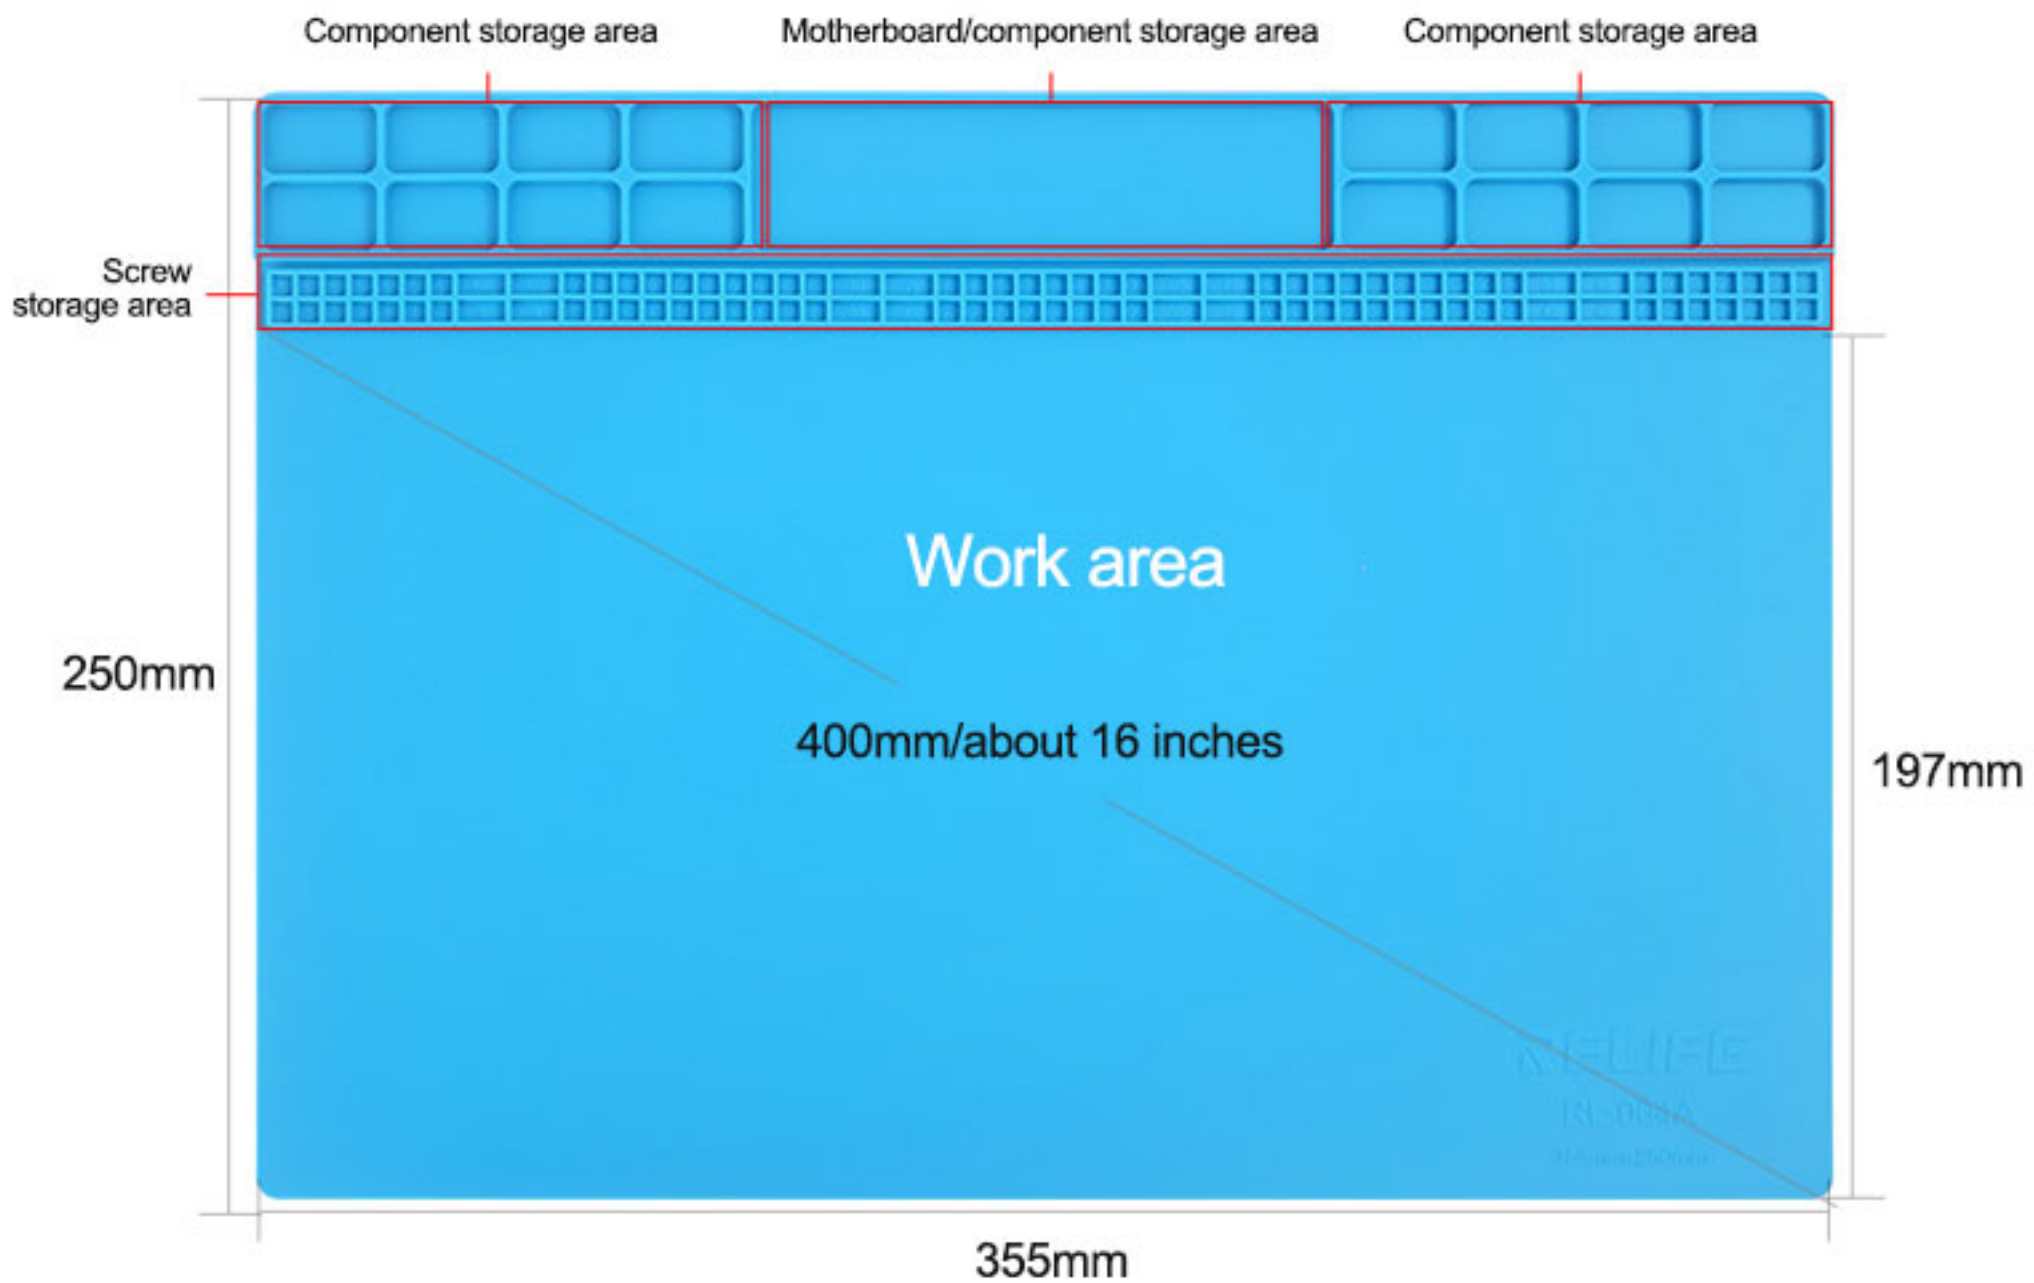

Note: Manual measurement will have \pm tolerance, for reference only, please refer to the actual product

BRAND	RELIFE
PRODUCT NAME	Multifunctional maintenance bench insulation pad
MODEL	SS-004A
NET WEIGHT	About 328g
GROSS WEIGHT	About 338g
PRODUCT SIZE	355*250*2.8mm
PACKAGE SIZE	360*270mm

PRODUCT DETAILS

01

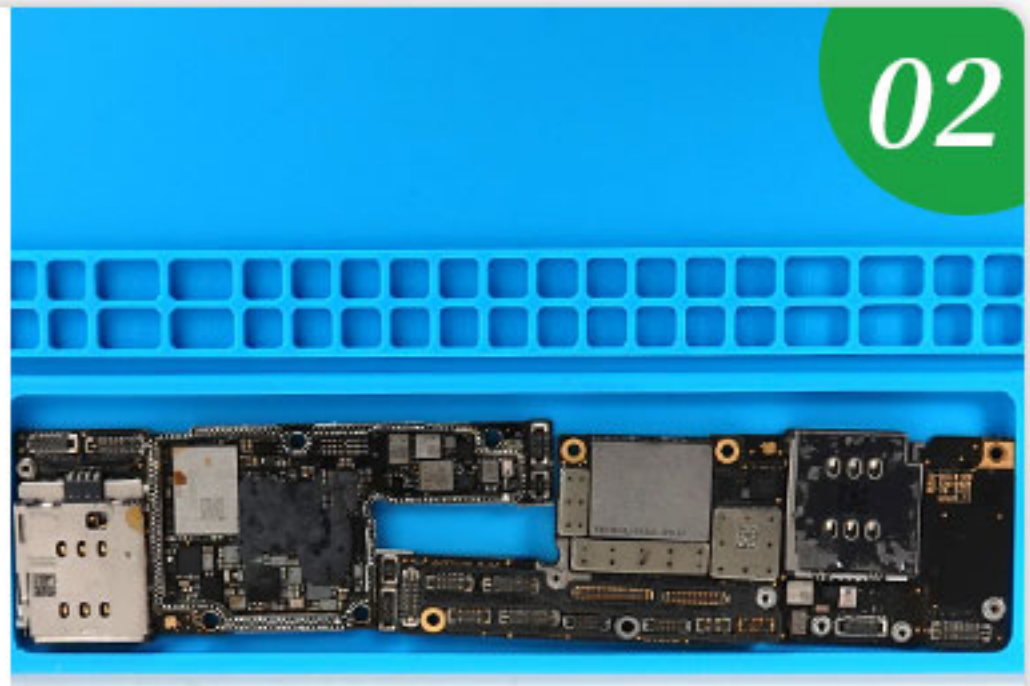

Increase and thicken

About 16 inches of large work area, thickened silicone

Motherboard/ component storage area

Holds motherboards/screw-drivers/large components to save space and avoid clutter

02

03

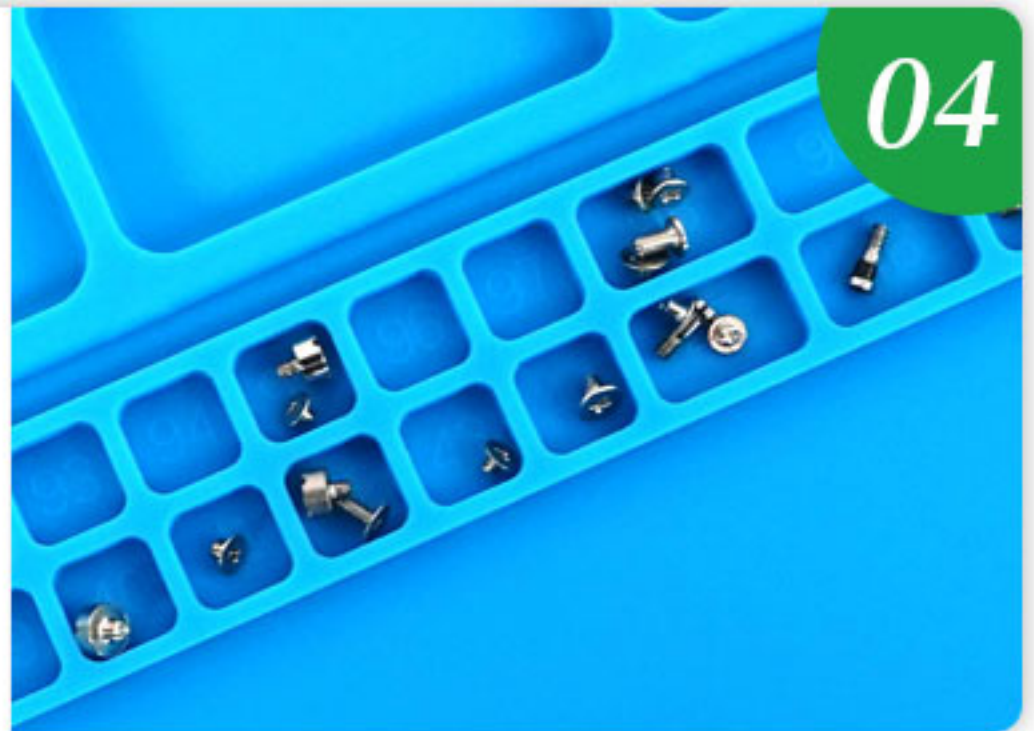

Long screw positioning grid

Long strip screws can be placed to avoid screw loss and confusion

Small screw positioning grid

Identification number grid, convenient and orderly placement

04
