

ST-8902D

2 In 1 Rework Station

Features

- Provide 3 sets shortcut temperature to avoid frequent settings.
- Use brushless fan, and the air volume is soft and adjustable.
- Designed with intelligent standby and automatic sleep functions.
- Temperature lock function, ensure constant temperature work.
- Software temperature compensation function, more accurate and convenient.

Specification

Model	ST-8902D	
Voltage	AC 230V±10% 50Hz (110V±10% 60Hz)	
Name	Soldering station	Hot air station
Power	90W	1300W
Temperature Range	200°C~500°C	100°C~500°C
Temperature Stability	±2°C	±5°C
Air Flow	20~120L/min	
The Handle Type	SP-990	SP-202E
Dimension(Main Unit)	200(L)x170(W)x150(H)mm	
Weight(Main Unit)	≈4.8kg	

Package List

Model	Package List		
ST-8902D	Main unit x1	AC cord x1	Manual x1
	Gun holder x1	Ground wire x1	Iron stand x1
	Hot air gun x1	Iron handle x1	Nozzles x3
	Certificate x1		

The left side of the host is the hot air table operation area, and the right side is the welding table operation area

Replacement of heating components

Quick replacement of plug-in heating element

Anti scald sleeve can be used to quickly replace the soldering tip

T990 Series Integrated Heater

HR-2102B Heater

The left side of the host is the hot air table operation area, and the right side is the welding table operation area

850 series nozzle

The handle is slim, lightweight, easy to grip, and easy to weld

850 series nozzle details in page 28. T990 integrated heater details in page 12.
